Monager Western Democratic Compaign Fund:
On behalf of the Milwaukee Journal I inclose check for \$200, which please credit to rour Western Democratic Campaign Fund. We know the opportunity the tariff-stricken West offers the party of the people, and that eastern Democratic leaders like yourself fills us with new life and determination. fills us with new life and determination. The advance Wisconsin has made politically has been by bold and hencest discussion of the questions before the people, and your assistance will make this educational work even more thorough and the result more certain. We shall ask our readers to send contributions to you.

close check for \$43.70, the first instalment I money collected by the Herald for the good of money collected by the Herald for the good work in the West. I am heartily in accord with your efforts and will do what I can to make the amount a large one. I believe with you that the West is a good field in which to work. The seed was planted there years ago, and the harvest is now ripe for the reapers. Let the Western Campaign Fund be spent to educate the people of the West in truly Democratic principles and in preventing "blocks of five" and such kepublican methods, and there will be a tidal wave of Democracy that will sweep the country.

It embress contributors from more than a dozen States, and has interested the efforts or more than forty of the leading Democratic and independent newspapers of the country. The distribution of the fund for legitimate pampain expenses in the Western and Northwestern states has been intrusted to a committee of honest and eminent men, who will be responsible for the sate delivery and proper disbursement of the money. The object is to provide such literature as will present to the minds of the people the important issues to be determined by the campaign. That the citizens of colorate may have an opportunity to join is his universal and popular movement for the political regeneration of the West the Keening Post has opened a subscription list and will co-operate with its esteemed metropolitan contemporary in the collection of the fund. The Democratic National Committee has been and is likely to be unable to reach them, and they will doubtless be glad to avail themselves of this means of giving to the fund which it is proposed to raise for the expenses of the campaign in the West.

The contributions to the Campaign Fund of the Democratic National Committee for the expenses of the general campaign throughout the country will doubtless be made in the usual way, and will not, of course, interfere with those to be made to the Western Democratic Campaign Fund, to which latter all who can should contribute.
